WHAT YOU MISSED IF YOU WERE ABSENT

Ron Osterholm, a Cerro Gordo County Public Health Official, discussed the history and potential for a pandemic outbreak of “Bird Flu” in the United States and particularly in our home county.

Statistics based on previous such outbreaks, indicated the seriousness of this health matter and the need for all to prepare for the possible outbreak.

We can prepare by having a plan for our families in place should we find it necessary to remain out of the main stream of life for a time, in order to protect ourselves. A typical emergency kit should include food, water, necessary medicines, batteries, emergency radio equipment, replacement batteries, cell phone etc.

We should all keep aware of this potential health issue and do what is recommended to protect ourselves and family.
