## WHAT YOU MISSED IF YOU WERE ABSENT

Scott Tornquist, wearing his city council hat, discussed several community issues, with an emphasis on the recently enacted sump pump ordinance.

Scott presented some study results that illustrate the demand placed on the sewage plant when heavy rains cause sump pumps to run almost constantly, and the negative impact caused when the pumps are connected to the sanitary sewer system.

Inspections and when necessary corrective citations will begin soon. If you don't have an outside hose or other discharge from you sump, then you are likely connected to the sanitary system and will be required to re-route your sump discharge so it can be collected by the storm sewer system.

Thanks Scott for keeping us up to date on this and other important community affairs.
