WHAT YOU MISSED IF YOU WERE ABSENT

Senior Planner, Charlie Kuester discussed the recently completed Mason City Comprehensive Plan, document.

The plan which used the work of several previous studies as a basis is a “Living Document” in that it is a roadmap to future land use within the city limits of Mason City.

The plan assumed a modest population growth of 1800 residents in the next 20 years.

Charlie coined the term “Smart Growth”, when discussing how to best utilize the resources in our community.

Industrial, Commercial, and Residential land use is laid out in the plan. Importantly, Green space is also including in the plan and requires either the city or the developers reserve adequate park and other recreational areas when planning new projects.

The plan will be presented to the public and city council, with several opportunities for public input.
