Today's program was presented  
by **Josh Byrnes**, Inds Div Chair  
at NIACC.

He told us about the Wind  
Turbine program NIACC has  
recently developed to support the  
fast growing Wind Turbine  
Farms in the North Iowa Area.

Working with Alliant and FL  
Light and Power, this program is  
attached to an already existing  
Electrical Tech Program on  
campus.

Students learn the basics in tower  
maintenance, with both electrical  
and hydraulics skills being  
taught.

The program is available in  
either 1 year or 2 year segments.  
Most students take the 2 year  
course.

NIACC has developed a working  
relationship with Florida Power  
that will continue to grow as  
newer technology is developed.
