Last weeks' program was scheduled to be presented by Michael Johnston, but a work emergency prevented him from attending.

On short notice Mary Markwalter brought us all up to date on the Library renovation progress. In short, the project is on schedule and on budget. Both are good things!

Many new services will be offered when the project is completed, which is projected to be Oct 2010

Henkel Construction is serving as construction manager for the project and Mary is very pleased with the working relationship she has with this local company.

As you drive by the site, notice how many local sub contractors are at work there.

As the work is completed, Mary and her staff plan to host, on a regular basis, information sessions for the public to become more familiar with the many services the Library offers.

The new facility will also feature an Industrial Arts, component that will assist users with various do it yourself techniques.
